SALVACLIP Comfort

ENGLISH

Salvaclip Comfort belt for armchair *to help positioning of seated patients. Especially useful for people with stability problems due to a functional disability.*

It uses a robust plastic buckles as locking device. This system allows a quick and easy application and can easily adjust the product depending on the size of the patient. It is the best choice for use in patients at risk of slipping and falling off the chair, those who adopt incorrect postures or have uncontrolled movements.

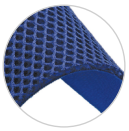

Made using 100% Polyester tridimensional mesh structure, providing high breathability, tear and washing resistance.
