SALVACLIP

ENGLISH

Salvaclip Standard perineal belt *to help positioning of seated patients. Especially useful for people with stability problems due to a functional disability. Perineal support prevents the patient from moving downward.*

Side release plastic buckles allows a quick and easy application and can easily adjust the product depending on the size of the patient. It is the best choice for use in patients at risk of slipping and falling off the chair, those who adopt incorrect postures or have uncontrolled movements.

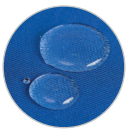

Made of polyester with water repellent coating and comfortable polyurethane foam. Reinforced polyester straps.
